

There's A Whole Lot To Love...

Located just a short drive from South Beach and Fremantle, this bespoke cottage boasts everything that's loved about the Hilton / Fremantle lifestyle. Northern orientated living spaces, indoor / outdoor liveability, mature gardens and many unique creative features. There's just so much to love!

With the external asbestos removed, insulated and reclad walls and all new louvre windows installed, this home has significant point of difference in the current Hilton market.

Combining the original highlights, jarrah floors and high ceilings with a contemporary edge, the open plan living has louvre windows to capture the northern light and provide cross ventilation. The island bench is a design feature of the kitchen with Caesar stone benchtops, gas cooking and dishwasher.

Land: 443m2
